A WISE CONCLUSION .- James McCall and Thomas Fraser, two colored men, arrested for fighting at the Northeastern Railroad Depot, were brought before the Mayor yesterday morning. The virulence of their quarrel caused the Mayor to refer the matter to a trial justice for examination, and he so ordered. When the court was over, the parties came together, and after a mutual consultation, decided that they did not have money enough to go before a trial justice, and, upon their joint request, the case will again be brought up before the Mayor this morning for his final

SPOILING FOR A FIGHT .- About half-past six o'clock on Thursday morning a jolly spirit, named Richard Smith, sallied out on King street, after imbibling freely of the ardents, to raise an excitement. Nothing better presenting itself, he got into a discussion with Paris Green, a colored man, near Queen street, and with but little preface pitched into his unsuspecting victim. Clubs and Stars were, however, on the watch, and before the fight could well begin arrested Smith. He was brought before the Mayor, who referred the case to a trial justice for examination.

SETTLING A CASE .- On Thursday night two fishermen quarrelled and had a desperate fight in King street near South Bay. One of them drew a knife and cut the other severely in the hand, while the latter retallated by a free application of his glistening incisors to the biceps of his antagonist. Both were arrested in medias res and brought before a trial justice. A day intervened, and when the case was called for trial the combatants appeared in court, declared that they were friends and not enemies, and shook hands in the most amicable manner. The matter was adjusted, and plaintiff and defendant left in the highest spirite.

ACCIDENTAL SHOOTING IN WINYAR BAY .- On Wednesday last two sallors of the schooner Louis Crockett, bound from Bucksville, S. C., to Baltimore, then lying at the mouth of Winyah Bay, left the vessel in a small boat for the purpose of shooting ducks. About five P. M. they returned, and one of the sallors clambered aboard the schooner, while the other William Gatt by name, remained in the small boat to hand up the game and gun. Gatt grasped the gun near the muzzle and handed It up to his comrade, slock foremost. Before the latter could take it one of the hammers hitched, in some way, against the side of the schooner, and, being drawn beyond the half cock, fell upon the tube when it was released. powder must have remetred unobserved upon the tube, for at the fall of the hammer the charge exploded, emptying the contents of the gun-a handful of duck-shot-into Gatt's thigh, a few inches below the hip joint, shatflesh. The unfortunate man was taken to Georgetown on Thursday morning, and placed under the care of Dr. T. P. Balley, who at once pronounced the wound an exceedingly dangerous one; giving it as his opinion that operation was performed by Dr. Balley, assisted by Drs. Forster and Heriot, also of Georgetown. MPORTANT TO PLANTERS AND FACTORS.

MIDDLETON'S FISH AMMONIATED PHOSPHATE.

This excellent brand of FERTILIZER comes before the public well recommended. Having been prepared with great pains and best materials, its adaptation to the crops of this section is unsurpassed, the evidence of which is furnished by the following testimonials of Professor SHEPARD and J. B. BISSELL, Esq., which we annex as follows:

OFFICE OF THE STATE INSPECTOR OF FERTILIZERS, March 31st, 1871.

Messrs. J. A. Enslow & Co.: GENTLEMEN—Enclosed please find the analysis of the sample of "Middleton's F.sh Ammoniated Phosphate," selected by my assistant from the cargo just arrived. The large amount of organic matter, rich in ammonia, and the highly soluble condition of the phosphoric acid, are sufficient recommendations for this article. I feel sure that the planter will be benefited by its judicious application to cotton and other crops. Respectfully, your obedient servant, (Signed)

C. U. SHEPARD, Jr., M. D., Inspector of Fertilizers for South Carolina.

Messrs, J. A. Enslow & Co., Agents Middleton's Fish Ammoniated Phosphate General Services, and beg to state that I applied it to Rice alongside of the Phosphate Manures manufactured in this city and vicinity, and the result was decidedly in favor of your Fertilizer.

I we not yet threshed my crop, and cannot, therefore, furnish you with the difference in yield, but the growth and vigor of the stalk proved to me the superiority of Middleton's Fish Ammoniated Phosphate over the other Fertilizers used. Very respectfully, yours.

UNIFORMITY OF QUALITY GUARANTEED.

THE CLEAR AND HARMLESS AS WA-TER-NATTANS'S CRYSTAL DISCOVERY FOR THE HAIR.—A perfectly clear preparation in one bottle, as easily applied as water, for restoring to gray hair its natural color and youth'ul appearance, to eradicate and prevent dandrug, to promote the growth of the hair and stop its falling out. It is entirely harmless, and perfectly free from any poisonous substance, and will therefore take the place of all the dirty and unpleasant preparations now in use. Numerous testimonia's have been sent us from many of our most prominent citizens, some of which are subjoined. In everything in which the articles now in use are objectionable, CRYSTAL DISCOVERY is perfect. It is warranted to contain neither Sugar of Lead, Sulphur or Nitrate of Silver, it does not soil the clothes or scalp, is agreeably perfumed, and makes one of the bist dressings for the Hair in use. It restores the color of the Hair "more perfect and uniformly than any other preparation," and always does so in from three to ten days, virtually feeding the roots of the Hair with all the nourishing qualities necessary to its growth and healthy condition; it restores the decayed and induces a new growth of the Hair more positively than anything else. The application of this won lerful discovery also produces a pleasant and cooling effect on the scalp and gives the Hair pleasing and elegant appearance. We call especial attention to the fact that a

limited number of trial bottles will be given way gratuitously to those wishing to try it. You will notice that in pursuing this course our aim is to convince by the actual merits of the article. ARTHUR NATTANS. Inventor and Proprietor, Washington, D. C.
